

See a GP online over secure video, from home or work - from your smartphone, tablet or PC

As part of our commitment to improving access for our patients we're using **Q doctor** to enable video consultations with GPs.

This means for certain conditions\* you can see a GP from home or work, without having to come to the practice.

Simply sign up to **Q doctor** and either call your practice to get a patient code or sign up directly using your photo ID. If your practice has opted to use codes to book appointments you can use your patient code to book your first video appointment, or if your practice isn't using appointment codes then just book an appointment that suits you.

The following practices are using **Q doctor**:

**Brill Surgery • Chinnor Surgery • Cross Keys Practice • Haddenham Health Centre Long Crendon Surgery • Princes Risborough Surgery • Thame Health Centre (Unity Health) • Waddesdon Surgery**

\* The app and website contain questions to establish whether your ailment is suitable for video. The clinician who sees you will make an informed decision as to the extent to which they can diagnose and treat you remotely.

Information for **Patients**

Providing NHS services

## To sign up and book

1. Use Chrome browser with a webcam
2. Go to [www.qdoctor.io](http://www.qdoctor.io)
3. Select **Sign up**
